

KLOVE is a positive, family friendly option on the radio that i am pleased to leave on in my home throughout the day. our entire family absolutely benefits from it's content and message. many, many residents of our community feel similarly about KLOVE, and if it were to be displaced by an LPFM broadcaster, the people of our community would be denied access to such a rare and beneficial station, that is unlike so many of the others we can tune in to. it provides a positive christian message and quality music and other content that is rare to find on the radio in our area. it is absolutely in the public's best interest to keep such a quality family-friendly station on the air when the airwaves are filling with so much questionable material that i would never allow myself or my family to be exposed to.
